Shubhanshu Shukla, 3 others reach ISS

Continued from Pg 1

"The #Ax4 crew -- commander Peggy Whitson, ISRO astronaut Shubhanshu Shukla, ESA astronaut Slawosz Uznanski-Wisniewski, and mission specialist Tibor Kapu -- emerges from the Dragon spacecraft and gets their first look at their home in low Earth orbit," the National Aero-nautics and Space Administration (NASA) said in a post on X.

"We are happy to be here. It was a long quarantine," Whitson, who is on her fifth spaceflight,

said as the four astronauts waved to the mission control at Hous-

ton. A live video link from the NASA showed the spacecraft approaching the space station. The docking sequence was completed at 4:15 pm IST.

After the more-than-28-hour journey since its launch from Florida at 12:01 hours on Wednesday, the Dragon spacecraft began a slow and measured approach by firing on thrusters to prepare for a rendezvous with the space station.

The spacecraft moved swiftly through the intricate manoeuvres, prompting the mission control to skip two halts at "waypoint-1" and "waypoint-2", which advanced the docking by nearly 30 minutes.

Just 20 metres from the space station, the spacecraft made its final approach, using a suite of laser-based sensors and cameras, aligned precisely with the docking port on the Harmony module of the orbital laboratory.

()))

After the soft capture of the spacecraft, the hard-mating was completed when the two orbiting bodies were connected with 12 sets of hooks with each other and communication and power links were established.

The space station crew performed the mandatory leak checks and hatch-opening procedures to ensure that the pressure inside the Dragon spacecraft was the same as on the ISS -- matching the pressure levels at the sea level on Earth.

India 'no' to sign joint statement in SCO meet

314 govt schemes worth ₹12L crore under scrutiny

Continued from Pg 1 It is not clear whether the NITI Aayog will also entrust the task to a third party as time is too short to evaluate schemes before the March 31, 2026 deadline.

A Finance Ministry circular made it clear that they must prove their "effectiveness" in achieving its set objectives and need to "continue" to achieve targets". Surprisingly, the circular also said that

every scheme should have a sunset date. Schemes that are fully or partially funded by the Union government will only be continued beyond the current financial year if the "evaluation report for the scheme shows positive outcomes. The government has also proposed other financial limitations. It also wants another scheme. in lieu of a current scheme, requiring less expenditure could also be proposed.
