0 have been physically and mentally taxing, but you must admit that you have a great deal going for you. It's difficult, though, to cope with partners' emotional intensity. Probably your best approach is to listen, learn and give the best advice you can.

The Sun is now

inching firmly

towards a fresh

The past few

months seem to

relationship with

GEMINI (May 22 - June 21) Mars is strong, but not too strong, which suggests that you may either explode with anger or turn the other cheek. I am not saying that one is right and the other wrong, but you must be prepared for the consequences.

CANCER (June 22 - July 23) You will soon consider the advantages of moving home. However, I suspect the ultimate conclusion will be that it is better to stay where you are and make important improvements. If you've been conjuring up financial dreams you'll soon be beginning to put them into practice.

LEO (July 24 - Aug 23) So many areas in

your chart are denoting imminent upheaval that you may find it difficult to believe that any change has positive consequences. But you may need to give up something small, in order to gain something big

continue to put your ideas forward. It looks certain that most people will accept what you have to say at face value; others will be unable to keep up. Romantic prospects are excellent. Mind you, the temperature is due to rise over the next few days.

**BY PETER VIDAL** 

SCORPIO (Oct 24 - Nov 23) I know you may have been obliged to go over a lot of old ground, but this is a period to focus on the future. Jupiter, you see, is a planet which has no truck with the ties and restraints of the past, and now it is working its magic in your home and family life.

SAGITTARIUS (Nov 24 - Dec 22) Calm down and don't make too much of a song and dance if monetary matters are becoming

complicated. A sudden move today may run into the sand tomorrow, but then you'll get going the day after. Impulse buys are probably best - or at least the most enjoyable!

CAPRICORN (Dec 23 - Jan 20) I don't think you could ever be totally prepared for some of the upheavals over the next three weeks. However, you should now have a chance to re-evaluate some of the personal benefits of past disturbances, and in no time you'll work out how to deal with fresh challenges.

AQUARIUS (Jan 21 - Feb 19) If that splendid planet Jupiter is havingthe

desired effect, you should now be able to detect more than a ray of hope in at least one special relationship. Don't turn your back on someone special, even if he, or she. has behaved badly. After all to err is human, to forgive divine.

PISCES (Feb 20 - Mar 20) You'll soon get stuck into a spot of social organising. Nobody can bring people together like you, or achieve the same spirit of peace. Why don't you pay attention to financial breaks? You'll quickly realise that you have to pay for a treasured dream.
