DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20) Mars' intriguing relationship with Neptune is pretty near perfect as far as all work and professional

ambitions are concerned, but only if you are able to recognise the difference between how the world is and how you'd like it.

TAURUS (Apr 21 - May 21) Like most people vou are blessed with a planetary alignment which confers inspiration and

imagination. What is more impressive in your chart is the manner in which your creative powers and spiritual aspirations are triggered. Try to see the best in people

GEMINI (May 22 - June 21) Continued close attention to a financial matter is desirable, although

not essential. When other people abandon their responsibilities, you will be the one who knows where to turn, for you have an amazing wealth of experience to draw on from the past.

CANCER (June 22 - July 23) Your daily planets

reveal this to be a special day if you have proposals to put forward and arguments to win. However, the long-term perspective evokes deep memories and could cause you to reflect on all those things which happened so

long ago. Hopefully certain

recollections are not painful.

LEO (July 24 - Aug 23) Secrecy is not one of your better-known characteristics, but today you really have to keep something to yourself. Don't worry about deceiving partners as long as

there is no self-interest involved. It may be, for example, that you keep something from them for their own good.

VIRGO (Aug 24 - Sep 23) If you are beginning

to feel as if you're walking up the down escalator, then you're probably pretty much in tune with the stars. The secret is to change direction now, before you end up in the wrong place! You won't lose the thread

LIBRA (Sep 24 - Oct 23) Carry on with allimportant professional moves, regardless of

associates' potentially timewasting or disruptive actions. If you give charitable activities a high priority you will do what the mystical philosophers call 'making merit', with good results.

SCORPIO (Oct 24 - Nov 23)

Pluto has played a profound role in your chart for many years, so emotional intensity is nothing new. On the other hand, occasionally a new pitch of excitement is reached and, right now, under the Moon's powerful sway, you may demand a new level of commitment.

SAGITTARIUS (Nov 24 - Dec 22)

much you have to spend or invest. If you have any uncertainties at work, or in any major public ambition. you may put important developments on hold until the picture is clearer.

CAPRICORN (Dec 23 - Jan 20)

Sober Saturn and jovial Jupiter are once again being activated,

reminding everyone that you are much more than the materialistic stereotype of an astrological cliché. Don't be afraid to speak your mind.

AQUARIUS (Jan 21 - Feb 19) Spare a little time for your physical well-

being, and use the opportunity provided by today's lunar position to clean up your diet and check out a new fitness regime. Don't be perturbed by a financial delay, but keep an eye on other people, just to make sure that they're doing what they said they'd do.

PISCES (Feb 20 - Mar 20)

saying that although colleagues may seem to be quite happy, someone, somewhere, is about to hit the roof. Keep your psychic antennae buzzing.
